PHOTO MANUAL

## DK PROGRESS

Fiskeri i Nordsøen har længe været en stor industri. Fisketrawlere, der fisker i Nordsøen, går ofte til søs i tre uger, hvoraf de bruger omkring 7-10 dage på rent faktisk at fange fisk. Disse trawlere sejlede ud fra landene langs Nordsøen, herunder England og Danmark. "Progress" er baseret på en sådan trawler.

## GB PROGRESS

Fishing in the North Sea has long been a big industry. Fishing trawlers fishing in the North Sea go to sea often for three weeks, of which they spend about 7-10 days actually catching fish. These trawlers shipped out from the countries along the North Sea, including the England and Denmark. "Progress" is based on one such trawler.

## D PROGRESS

Der Fischfang in der Nordsee ist seit langem ein großer Wirtschaftszweig. Fischtrawler, die in der Nordsee fischen, fahren oft drei Wochen lang auf See, wovon sie etwa sieben bis zehn Tage tatsächlich mit dem Fischfang verbringen. Diese Trawler wurden aus den Ländern entlang der Nordsee verschifft, darunter England und Dänemark. „Progress“ basiert auf einem solchen Trawler.

## F PROGRESS

La pêche en mer du Nord est depuis longtemps une industrie importante. Les chalutiers pêchant en mer du Nord partent souvent en mer pendant trois semaines, dont environ 7 à 10 jours pour attraper du poisson. Ces chalutiers partaient des pays riverains de la mer du Nord, notamment de l'Angleterre et du Danemark. "Progress" est basé sur l'un de ces chalutiers.

## NL PROGRESS

De visserij in de Noordzee is lange tijd een grote industrie geweest. Visserijtrawlers die in de Noordzee vissen, gaan vaak drie weken de zee op, waarvan ze ongeveer 7 tot 10 dagen daadwerkelijk vis vangen. Deze trawlers verscheepten vanuit de landen langs de Noordzee, waaronder Engeland en Denemarken. "Progress" is gebaseerd op zo'n trawler.

## E PROGRESS

La pesca en el Mar del Norte ha sido durante mucho tiempo una gran industria. Los arrastreros que faenan en el Mar del Norte se hacen a la mar a menudo durante tres semanas, de las cuales dedican entre 7 y 10 días a pescar. Estos arrastreros partían de los países a lo largo del Mar del Norte, incluidos Inglaterra y Dinamarca. "El progreso" se basa en uno de esos barcos pesqueros.

## I PROGRESS

La pesca nel Mare del Nord è stata per lungo tempo una grande industria. I pescherecci che pescano nel Mare del Nord vanno in mare spesso per tre settimane, di cui circa 7-10 giorni trascorrono effettivamente a catturare i pesci. Questi pescherecci partivano dai paesi lungo il Mare del Nord, comprese l'Inghilterra e la Danimarca. "Progress" è basato su uno di questi pescherecci da traino.
